The ADTA Membership and Certification Program was specifically designed for dance educators. And it's structured to break this down, step by step, and to show you what to focus on to make big strides quickly.

## Who Gets The Biggest Benefit?

The people who get the biggest benefit from the ADTA Membership and Certification program, are those that engage in the community, love being challenged and learning new things, and are ready to invest in themselves to make their goals a reality.

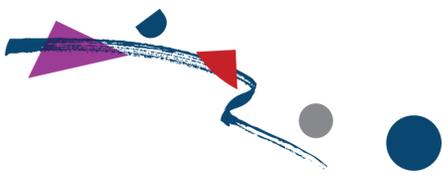

## Who Shouldn't Join?

Let's also take an objective look at the ADTA Membership and Certification. Who won't do well with this material?

It's not for anyone who just wants to "kind of" check things out. You can't "kind of" get acro right at your studio.

Getting these types of results takes a commitment to succeed. Would you want to fly with a pilot who "kind of" knew how to fly? Or would you rather have a pilot who committed to mastering the necessary skills. It sounds like a silly example, but it's a perfect analogy.

The ADTA Membership is for people who are committed to doing what it takes to lay a solid foundation and are serious about getting acro right at their studio. If the intention and right attitude isn't there, this isn't the program for you and it's best not to join.
